

ECE 445 Biomedical Instrumentation

Homework 7

Due: Wednesday November 24, 2010

Prepare a brief (1-2 page) written status report of your design project. Include the following information:

- Project title & team members
- **(if necessary)** Updated Project Description (~1/2 page)
 - include this only if you've made significant changes in your project since HW 6
 - see HW 5 for details
- Summary of Completed Work (~1/2 page)
 - describe in paragraph form what you have accomplished/completed so far
 - briefly describe any challenges you have encountered requiring you to alter your project plan and/or schedule
 - if applicable, attach figures illustrating your design
- Summary of Work to be Done (~1/2 page)
 - describe in paragraph form what your team still needs to do in terms of the three project objective areas
 - technology/research
 - product design/development
 - business/commercialization
- Updated Task-Timeline
 - update your HW 6 GANNT chart type thing to show what you have done and what still needs to be done
