Team 1 Technical Presentation – Microfluidics and Flow Rate for Surgical Applications

Team 2 Technical Presentation - 3D Model reconstruction Algorithms

Team 3 Technical Presentation - Text-to-Speech Technology

Team 4 Technical Presentation – Comparative study of Ultra-sonic and laser-diode sensors for range detection.

Team 5 Technical Presentation - High Voltage Testing & Issues

Team 6 Technical Presentation - Radar Based Systems for Automotive Applications

Team 7 Technical Presentation – RFID Technology

Team 8 Technical Presentation - Wireless Sensors and Communication

Team 9 Technical Presentation - Ultrasonic Imaging Devices

Team 10 Technical Presentation - Sensor for Monitoring

Team 11 Technical Presentation – 3D Model in NX

Team 12 Technical Presentation - Switch Mode Power Supplies

Team 13 Technical Presentation - Tuned LEDs and their Applications

Team 14 Technical Presentation - Thermal Camera Technology
