

**Faculty Positions in Electrical and Computer Engineering
at**

Michigan State University

Candidates for faculty positions in the Department of Electrical and Computer Engineering at Michigan State University are sought in multiple areas including wide bandgap electronics especially with applications to microwave/millimeter-wave circuits/devices or power devices, robotics and automation with emphasis in bio- and nano-technology applications, and nondestructive evaluation with emphasis in materials analysis and biomedical materials and systems. The individuals hired into these positions are expected to develop nationally recognized, externally funded research and to provide leadership in educational and outreach programs. Strong collaboration potential exists with complementary research in ECE and other departments in the college and university. Applicants at all ranks will be considered. A PhD in electrical engineering or related area is required.

Michigan State University, a research intensive premier Land Grant University, enjoys a park-like campus of over 2,000 developed acres and over 3,000 acres of outlying research facilities and natural areas. The campus is adjacent to the city of East Lansing and the capital city of Lansing. The Greater Lansing area has approximately 250,000 residents. The local communities have excellent school systems and place a high value on education. Michigan State University is pro-active in exploring opportunities for the employment of spouses, both inside and outside the University.

Applications should be received by February 15, 2008 for full consideration, however the search will continue until the positions are filled. Applicants should submit a full resume, a cover letter, and the names and contact information of three references. Applications should be submitted to: Faculty Search Committee Chairperson, Electrical and Computer Engineering, 2120 Eng. Bldg., Michigan State University, East Lansing Michigan 48824-1226. For more information please visit the web site at <http://www.egr.msu.edu/ece-faculty-search/>. The College of Engineering and the University are committed to building a culturally diverse faculty and strongly encourage applications from women and minorities. MSU is an Affirmative Action/Equal Opportunity Employer.
