This document contains a prerequisite flowchart for the Computer Science major at Michigan State University, effective for students admitted to the Computer Science major beginning Fall 2008. The flowchart outlines the course requirements for the Computer Science major, divided into Freshman, Sophomore, Junior, and Senior years. Each term shows the courses required, with prerequisites indicated by arrows, and electives or cognates listed as options. The chart also includes notes on prerequisites, co-requisites, and electives, ensuring students are aware of the specific requirements for each level. The legend at the bottom of the flowchart clarifies the symbols used for prerequisites and concurrent courses. The flowchart is designed to guide students through their academic journey, ensuring they meet all the necessary prerequisites for their degree. It is last revised as of June 2010.
