May 8, 2012

Dean Udpa:

The Engineering Undergraduate Studies Committee spent significant time handling routine matters this year related to courses and curriculum.

In addition we

- Assessed EGR 100 and 102
- Revisited the "Teaching Effectiveness Report", but took no new action
- Reviewed the Packaging Engineering degree proposal and made suggestions
- Proposed an Intellectual Property statement for undergraduates
- Discussed persistence, retention, and time to degree
- Discussed online courses such as MITx
- Discussed communication skill development in courses

Sincerely,

Dr. Richard Enbody
Associate Professor
Chair of EUSC

College of Engineering

Department of Computer Science and Engineering

Richard J. Enbody
