

# Career 411 Biosystems Engineering

## Looking for a full-time job?

Average Salary - \$53,600  
Received a Bonus - 50%  
Average # of job offers - 2.13

### Job Opportunity Areas

Food and pharmaceutical process engineering  
Sustainable and bioenergy systems engineering  
Ecosystems engineering  
Biomedical engineering

## Looking for a co-op / intern position?

Average Pay - \$15.54/hr

### FAQ's

**How is a co-op different from an internship?** A co-op is an alternating/rotational program that is traditionally both paid and worth credit. An internship typically occurs all at one time. It is possible for a student to earn credit for an internship, but those details must be worked out with the university. Employers generally interchange these two terms.

**When should I start?** It is recommended that students begin experiential work after their freshman year and before their junior year of college.

**Does the Center help students get jobs?** Of course! The Center offers a wide variety of support for students during the job search process. Check out My Spartan Career, weekly seminars held by employers, career fairs, and workshops. Another resource to take advantage of is Hope Croskey of BE Career Services.
