### Recent Job Titles of Graduates

Computer Programmer  
Systems Analyst  
Software Engineer  
Consultant

## Looking for a co-op / intern position?

Average Pay - \$18.33/hr

### FAQ's

**How is a co-op different from an internship?** A co-op is an alternating/rotational program, while an internship typically occurs all at one time. Both are usually paid and worth credit (must go through university). Employers generally interchange these two terms.

**When should I start?** It is recommended that students begin experiential work after their freshman year and before their junior year of college.

**Does the Center help students get jobs?** Of course! The Center offers a wide variety of support for students during the job search process. Check out My Spartan Career, weekly seminars held by employers, career fairs, and workshops.

**Technical or related experience is essential** for the computer science degree. Students are encouraged to begin gaining computer related experiences right away.
