Peer PERSPECTIVES
A weekly advice column from students like you

Q: “During an interview with GE, I was asked, ‘What has been your greatest disappointment...?’ What is the best way to respond to this question?”
~Andrea Scarlett, AES Sophomore

Career Peer Says: “When an employer asks a question about a past mistake, they are trying to get a feel for your ability to properly react and learn when presented with a challenge. You want to pick a situation in which you can provide explicit examples of how your character and determination have helped you to improve yourself since the event. For example, if you let your GPA slip during a busy sophomore year, you could explain how you have been taking every opportunity to ask questions, seek help outside of class, and describe how your grades have improved due to your hard work and perseverance. It is important to explain what you have learned from the situation, as well as how this lesson makes you a good candidate for the position.”

Do you have a question or experience to share with the Career Peers? Please email us at spartaneeringnews@gmail.com
