Undergraduate Research Internship Opportunity at IBM

The internship will last approximately 10 weeks during the summer of 2010. Candidates will work individually within IBM's Technology and Innovation in the Santa Clara, California, campus to perform research and design for new technology products.

Call for Applications:
The opportunity is open to all US citizens and permanent residents. The internship will start in May 2010. Successful candidates will be required to commit to a 10-week internship, working 40 hours a week. Applications will be accepted through March 15, 2010.

ME Toy Drive

The time for giving has arrived. Help us to collect toys for about 600 children to receive gifts this Christmas. The children most in need are from
