

Germany - Engineering in Kaiserslautern, This program welcomes junior and senior electrical & computer engineering students. Past students have enrolled in the following courses: Measurements, Power Systems, Electromagnets , ECE research and Intro to German Language. (see coordinator for details).

Summer 2008

Summer semester program /Mechanical Engineering in Aachen, Germany.

This program is for mechanical engineering majors. Students will take 12 credits ME courses including ME research. The program is also industry-connected. Contact Professor John Foss for details. foss@egr.msu.edu

NOT FEATURED

HOWEVER, ENGINEERING STUDENTS MAY PARTICIPATE:

***SYDNEY AND MELBOURNE ,
AUSTRALIA,
UKRAINE ,
MONTERREY, MEXICO
AND
SURREY, ENGLAND (UK)***

Sweden-Denmark - renewable bio-energy systems /four week summer program aligned with a biennial global conference in Europe/most majors may participate.

(great for your resume)

***Engineering
Study Abroad &
Global Learning***

Our mission is to offer students options in experiential learning. One of the many options in our college is to study abroad. The benefits of an abroad learning experience include:

- Meeting people of diverse backgrounds and culture
 - Learning a different language
- Seeing interesting places and monuments
- Making progress toward your degree
- Viewing the world from a global perspective

Email or visit (walk-ins welcome)

Maggie Blair-Ramsey-1108 Engineering Bldg.

(517) 432-2012

blairram@egr.msu.edu

Russia-Civil Engineering and other majors (by permission) may participate in this direct-enroll five-week summer program

This rich-in culture opportunity boasts of being high in quality and low in cost.

How to Participate

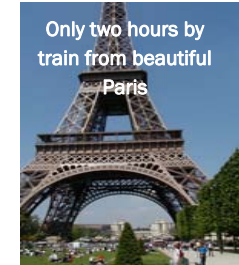

Engineering study abroad programs are tailored to fit engineering students in specific majors. If you are an engineering student the steps are:

- Meet with the Study Abroad Coordinator to talk about your options. The coordinator can address issues such as the appropriate program for you, requirements, program and other cost, passport-visa requirements, deadlines, scholarships, and important information about the location.
- Meet with your advisor to confirm that you are on track academically.
- Get approval from your Program-Faculty leader for participation.
- Finally, you will be asked to complete an online application for the Office of Study Abroad

www.studyabroad.msu.edu/applications/index.html

Study in Taiwan at National Taiwan University, National Tsing Hua University and National Chiao Tung University. Most majors are welcome to participate in these fall, spring and summer semesters/scholarships maybe associated with these programs. Courses arranged by Electrical, Mechanical and Computer Science Departments/see coordinator for details.

Lyon, France (ECAM Academy)

Mechanical Engineering four week program students who participate in this program will complete short research project and a course take an Intro to French Language course.

Cassino, Italy - Electrical Engineering Courses) and Intro to Italian language at Cassino from Early May-late June.
