Recent Job Titles of Graduates
Computer Programmer
Systems Analyst
Software Engineer
Consultant

Looking for a co-op / intern position?
Average Pay - $14.76/hr

FAQ's

How is a co-op different from an internship? A co-op is an alternating/rotational program, while an internship typically occurs all at one time. Both are usually paid and worth credit (must go through university). Employers generally interchange these two terms.

When should I start? It is recommended that students begin experiential work after their freshman year and before their junior year of college.

Does the Center help students get jobs? Of course! The Center offers a wide variety of support for students during the job search process. Check out My Spartan Career, weekly seminars held by employers, career fairs, and workshops.

Technical or related experience is essential for the computer science degree. Students are encouraged to begin gaining computer related experiences right away.
