The Center for Spartan Engineering

Here's what's going on this week:
Week of 3/6

**Chrysler, GM and 30 other companies to offer 2,000-plus Jobs @ ESD’s Job Fair**

Monday, March 7th, 2 - 7pm
Suburban Showplace Collection(formerly Rock Financial Showplace)
Novi, MI

The event will give you the opportunity to meet with more than 32 companies including Chrysler, General Motors, as well as GE Aviation; DASI Solutions; American Axle and Manufacturing; ALTe, LLC; Dow Corning; Durr Systems; Talascend; and many others.

The job fair is the premier recruiting event for those seeking full or part-time positions, or even internship opportunities. Students graduating this spring from Michigan universities are being encouraged to polish their resumes and attend this job fair for the opportunity to meet with high-level recruiters, land their dream job and stay right here in Michigan.

**Cost:** Free to ESD Members, $15 for non-members.
To register, go to [www.esd.org](http://www.esd.org), and click on Engineering and Technology Job Fair.

**Big Ten Career Expo 2011**

Friday, March 11th, 9am - 3pm
Union Station, Indianapolis, IN

Heading to watch the Spartans in the Big Ten Tournament? Don't miss out on this great career event geared specifically for Big Ten Students.

**DTE Engineering Expo 2011**

Saturday, April 2nd
**Deadline to Apply is March 13th**
Fermi 2 Nuclear Power Plant, Newport, MI

DTE Energy's Fermi 2 Nuclear Power Plant, located in Newport, Mich., is hosting an Engineering Expo to find talented professionals interested in learning more about a variety of prospective Engineering job opportunities at Fermi 2. Upcoming opportunities in Engineering at Fermi 2 will require the minimum of a Bachelors degree in any Engineering discipline (i.e. Electrical, Mechanical, Civil, Nuclear, etc) or an anticipated graduation date with an Engineering Bachelors degree by August 2011.
The Engineering Expo will be held at Fermi 2 on Saturday, April 2. During the Expo, attendees will have a unique opportunity to learn about working as an engineer in the nuclear industry. A variety of managers and supervisors from several engineering departments, Training, and members of the North American Young Generation in Nuclear will be on hand to give an overview of the Fermi 2 plant and how it operates. Attendees will also get a tour of the Reactor Model, Control Room Simulator, and Hi-bay (plant equipment mock ups).

Beginning March 6 through March 13, those interested in attending the informational Expo can send their resume and contact information to Fermiengexpo@dteenergy.com. Due to space limitations and security requirements at the Fermi 2 site, attendance at the Engineering Expo is limited to 150 people and is by invitation only. Those invited to attend will be notified via email by March 25 and given specific instructions for entrance to Fermi 2 on April 2.

How to register:
Persons interested in attending the Engineering Expo should submit the following information to Fermiengexpo@dteenergy.com, along with their resume.
1. Name
2. Degree
3. How did you hear about this Engineering Expo?
Note: Don't forget to attach your resume!
