Michigan Center for Industrial and Applied Mathematics (MCIAM) at Michigan State University is hosting a two-day workshop on multiscale modeling, analysis, and simulations.

The first MCIAM workshop will focus on multiscale wave propagation and transport theory. This exciting two-day event will bring together researchers in various fields that involve analysis and computation for multiscale modeling and applications.

Who should attend? Anyone working or studying in this field that is interested in being a part of a spirited gathering to promote the exchange of ideas, present significant findings, explore industrial applications, and discuss future directions.

MICHIGAN STATE
UNIVERSITY

Invited Speakers

- T. Hou**, Applied and Computational Mathematics, Caltech
- S. Jin**, Department of Mathematics, University of Wisconsin
- C.-Y. Kao**, Department of Mathematics, Ohio State University
- R. LeVeque**, Department of Applied Mathematics, University of Washington
- K. Mercure**, Dow Chemical Company
- S. Osher**, Department of Mathematics, UCLA
- J. Ralston**, Department of Mathematics, UCLA
- J. Rossmannith**, Department of Mathematics, University of Wisconsin
- J. Shen**, Department of Mathematics, Purdue University
- C.-W. Shu**, Division of Applied Mathematics, Brown University
- P. Smereka**, Department of Mathematics, University of Michigan
- K. Solna**, Department of Mathematics, University of California, Irvine
- F. Triki**, Universite Joseph Fourier, France
- J. L. Vay**, Lawrence Berkeley National Laboratory
- D. Vvedensky**, Imperial College, United Kingdom
- M. Weinstein**, Department of Applied Physics and Mathematics, Columbia University
- H. K. Zhao**, Department of Mathematics, University of California, Irvine
- J. Zou**, Department of Mathematics, The Chinese University of Hong Kong, China
