1. Agenda: Approved

2. Minutes of January 22, 2015 were Approved

3. Computer Science BS Program Change was approved with a minor correction. The program change updated biology listings, and deleted options to substitute approved math or statistics courses in favor of simply specifying selective courses.

4. Computer Science Undergraduate Minor Program Change was approved with a minor correction. Change involved broadening the list of selective courses to better distribute students in the minor across CSE courses.

5. CSE Course Changes Approved: CSE 410, 420, 422, 425, 435, 440, 450, 460, 471, 472, 473, 476, 477, 480, 484, 490, 491, 498. Changes were primarily changing restrictions from "department" to "major(s)." This corrects an issue wherein students in the minor could access almost all courses without overrides, and progress in the degree program without admission to the major.

6. Comments from Wolff

Meeting adjourned at 2:05 pm

Respectfully submitted,
Thomas F. Wolff
