- 5.) **What are the official colors of Tau Beta Pi?**
- 6.) **What is Tau Beta Pi's public creed?**
- 7.) **What is the purpose of Tau Beta Pi, as stated in the Preamble to the Constitution?**
- 8.) **To what District does our chapter belong?**
- 9.) **Who are the current President and Secretary-Treasurer of the Tau Beta Pi Association?**
- 10.) **On what date did Sigma Tau merge with Tau Beta Pi?**

11.) Now for a fun and creative Engineering Problem!!

The Engineering Building at MSU is lacking study space for its engineering students, its library and student lounges are far too overcrowded! As one of the topmost engineering students in the college, the Dean appoints you to remedy this problem. However, you are limited to using all or some of the following items: 5 rolls of Duct Tape, 1 pack of bubble gum, 12 Freshmen, your TI-92, palm pilot, cell phone, and laptop, a pad of engineering paper, one gorilla suit, a Ricky Martin CD, 6 slinkys, 1 CATA bus, John Spirit, 1000 Blazing wings from BW3s, a copy of Bill and Ted's Excellent Adventure, the crossword from the State News, 10 U of M football helmets, 13 tube socks, 1 drum set, a set of calipers, and a 4 pack of Red Bull. What solution do you propose? (You may write on the back of this sheet.)
