

The TOSC Program and Oregon-area Citizens Present *A Community Meeting on the Envirosafe Services of Ohio Investigation*

TOSC Visualization and Report of Findings

Wednesday, November 12th, 7:00-9:00 p.m.
University of Toledo Lake Erie Center
6200 Bayshore Rd., Oregon, OH

Community Welcome

Community participation in the Envirosafe Investigation and Cleanup
Joanne Schiavone, Oregon Resident

Introductions and Meeting Overview

What to expect from tonight's meeting
Kirk Riley, TOSC Program Manager at Michigan State University

Visualization of ESOI Contamination

Overview of TOSC's work to understand contamination at ESOI
What is Integrative Ground Water (IGW) and what does it offer?
Results of ESOI visualization
Dr. Shu-Guang Li, Associate Professor of Environmental Engineering, Michigan State University

Public Comments and Questions

Your questions are welcome at any time. The final 30 minutes of the meeting will be dedicated to addressing any questions or comments about TOSC's review of the ESOI facility and the Phase 1 Investigation.

What is TOSC?

The Technical Outreach Services for Communities (TOSC) program promotes community involvement in environmental decision-making through educational and technical assistance services, and is funded under a grant from the U.S. Environmental Protection Agency. TOSC is housed in the Midwest Hazardous Substance Research Center. Participating universities include Purdue University, Michigan State University, Kansas State University, and the Virginia Polytechnic Institute and State University.

TOSC program services seek to build community understanding of site contamination problems and empower citizens and local government to participate more effectively in the decision making process. TOSC faculty, working collaboratively with citizens, design educational workshops that address key questions and concerns. Additionally, TOSC reviews documents and provides professional guidance on site cleanup work.
