Keynote Speaker
Chuck Cousino is the Onsite Wastewater Program Coordinator at the Colorado Department of Public Health and Environment. He earned a Bachelor of Science Degree in Environmental Health from Ferris State University; and is a Registered Environmental Health Specialist. Chuck’s professional career began many years ago as a Registered Environmental Health Sanitarian (REHS) at Livingston County Health Department. He then moved to the dark side, where the majority of his experience in the onsite industry came from over 20-years as a project manager of the onsite wastewater group at Boss Engineering in Howell, Michigan. In this position, he gained extensive experience in soil and site evaluations as well as the design and management of residential and small-scale onsite wastewater treatment systems. Chuck is a former Michigan Onsite Wastewater Recycling Association (MOWRA) president, former president of Colorado Professionals on Onsite Wastewater, and recent past president of SORA, the State Onsite Regulator’s Association.

Special Guest Speaker
Therese Wheaton’s firm, Crystal Environmental, continues to service and optimize wastewater facilities. In the mid 90’s, they focused on supplying equipment for pumpers, and successfully handling septic, grease trap, and industrial concentrated waste streams. Their experience in matching business goals with local, state, and federal guidelines has been paramount in their success. These systems, from 5,000 gallons per week to 450,000 gallons per day, are being operated across the country and solving local and regional liquid waste disposal needs. Continue the journey with Therese Wheaton to see the work accomplished in the last year. She will share with you how others are building small, Medium and LARGE processing systems and meeting the most stringent governmental guidelines for pennies a gallon.

Mobile Truck Simulator
This year, the Michigan Center for Truck Safety will be onsite with the Mobile Truck Simulator. Participants at the conference will have the opportunity to get behind the wheel of the “Big Rig” (in the simulator) to learn more about their driving skills. The Michigan Center for Truck Safety is a non-profit organization dedicated to improving highway safety on Michigan’s roadways, through comprehensive safety educational programs for Michigan’s trucking industry. These services and programs are sponsored by the Michigan Truck Safety Commission (MTSC) and funded through a grant to the Michigan Department of Environmental Quality “CONTINUING SEPTAGE EDUCATION REIMBURSEMENT REQUEST” EQP5918. More information is available on the web at: www.michigan.gov/deqseptage.

Registration and Conference Details

ADVANCED REGISTRATION DEADLINE DECEMBER 8, 2017
****
LATE FEES APPLY AFTER DEADLINE
