This year has been unlike any in history. But while tough times are temporary, being a Spartan Biosystems Engineer (BE) is forever.

Michigan State University Biosystems Engineering will hold a virtual departmental graduation celebration on May 16, 1:00 pm EDT (~ 60 minutes duration or less) for all undergraduate and graduate BE students earning degrees at the end of the 2020 spring and summer semesters. Members of the 2020 class, their families, friends, and Spartans everywhere are invited to gather online and make this a BE celebration to remember. Hosted by Biosystems and Agricultural Engineering (BAE) Department Chair Darrell Donahue and the BAE faculty, we hope you will join us in congratulating the BE class of 2020!

The university postponed its May 1 in-person commencement due to the novel coronavirus pandemic. This virtual event does not replace an in-person ceremony and members of the class of 2020 will be invited to participate in a future in-person commencement.
