DRAINAGE WORKSHOP

FEBRUARY 12 AND 13, 2020
Henry Center, Room B119
3535 Forest Rd, Lansing, MI 48910
Registration Fee: \$200

- Learn to design a drainage system with hands-on problems.
- Design with easy-to-use online tools to maximize profit.
- Learn about estimating cost, tips for proper installation, safety, and legal considerations.
- Learn about controlled drainage design and its impact on water quality and crop yield.
- Intended for farmers, contractors, technicians, and whoever is interested in learning about drainage concepts and drainage design for crop production and water-quality protection.

For more information, please click on the registration link.
