Assistant/Associate/Full Professor- Tenure System
Department of Biomedical Engineering

The Department of Biomedical Engineering (BME) in the College of Engineering at Michigan State University is pleased to invite applications for a tenure-system position at the Assistant, Associate, or Full Professor level. The BME department was established in 2017, building on a strong, 160-year history of educational and research programs in engineering along with sustained excellence in both human and veterinary medicine. The BME department has 14 primary faculty and 23 joint faculty members. Many BME faculty have joint appointments or continuing collaborations with departments in the College of Human Medicine, College of Osteopathic Medicine, and the College of Veterinary Medicine. The department has strong research programs in biomedical engineering, with annual research expenditures from the primary faculty of $12M. The BME department and College of Engineering have a strong track record of mentoring junior faculty to successfully grow their academic careers. The department is housed within the new Institute of Quantitative Health Sciences and Engineering building, which includes state-of-the-art laboratory facilities (https://iq.msu.edu/). The department currently offers graduate programs (MS and PhD), with approximately 46 full-time doctoral students. For additional information about the BME Department, please visit https://www.egr.msu.edu/bme/.

MSU enjoys a park-like campus with outlying research facilities and natural areas. The campus is adjacent to the city of East Lansing and Michigan’s capital city of Lansing. The Lansing metropolitan area has a diverse population of approximately 470,000. Local communities have excellent school systems and place a high value on education. Michigan State University is pro-active in exploring opportunities for employment for dual-career couples, both inside and outside the University. Information about WorkLife at MSU and the College of Engineering can be found at https://worklife.msu.edu/ and https://www.egr.msu.edu/about/resources/faculty-staff/worklife-at-engineering.

Interested individuals please visit the posting at https://careers.msu.edu/en-us/job/510850/assistantassociatefull-professor-tenure-system to see details on requirements and application materials.

*Michigan State University has been advancing the common good with uncommon will for more than 160 years. One of the top research universities in the world, MSU pushes the boundaries of discovery and forges enduring partnerships to solve the most pressing global challenges while providing life-changing opportunities to a diverse and inclusive academic community through more than 200 programs of study in 17 degree-granting colleges.*
