Are you looking for academic options outside the College of Engineering, but still in a technical field? It is still possible to find employment in technical industries with majors other than engineering. Employers hire people with diverse skill sets, and from all different academic backgrounds.

**APPLIED ENGINEERING SCIENCE**
- Actuarial Science (CNS)
- Agribusiness Management (CANR)
- Economics (CSS)
- Experience Architecture (CAL)
- Food Industry Management (CANR)
- Packaging (CANR)
- Urban Planning (CSS)

**BIOSYSTEMS ENGINEERING**
- Biochemistry (CNS)
- Biology (CNS)
- Chemistry (CNS)
- Crop and Soil Science (CANR)
- Food Science (CANR)
- Forestry (CANR)
- Health Professional Education Track (ED)
- Horticulture (CANR)
- Microbiology (CNS)
- Plant Biology (CNS)
- Pre-Med Track (CNS)
- Pre-Vet Track (CVM)

**CHEMICAL ENGINEERING**
- Biochemistry (CNS)
- Chemistry (CNS)
- Environmental Biology/Microbiology (CNS)
- Environmental Biology/Zoology (CNS)
- Environmental Geosciences (CNS)
- Environmental Studies and Sustainability (CNR)
- Food Science (CNR)

**CIVIL ENGINEERING**
- Construction Management (CANR)
- Experience Architecture (CAL)
- Geological Science (CNS)
- Landscape Architecture (CANR)
- Physics (CNS)
- Urban Planning (CSS)

**COMPUTER / ELECTRICAL ENGINEERING**
- Cognitive Science Minor (CAL)
- Game Design Minor (CAS)
- Information & Communication Technology for Development Minor (CAS)
- Information Technology Minor (BUS)
- Media & Information (CAS)
- Physics (CNS)
- Technology Systems Management Minor (CANR)

**COMPUTER SCIENCE ENGINEERING**
- Cognitive Science Minor (CAL)
- Computational Mathematics (CNS)
- Experience Architecture (CAL)
- Game Design Minor (CAS)
- Geographic Information Science (CSS)
- Information & Communication Technology for Development (CAS)
- Information Technology Minor (BUS)
- Media & Information (CAS)
- Security Management Minor (CSS)
- Technology Systems Management Minor (CANR)

**ENVIROMENTAL ENGINEERING**
- Biology (CNS)
- Chemistry (CNS)
- Crop & Soil Sciences (CANR)
- Environmental Biology/Microbiology (CNS)
- Environmental Biology/Zoology (CNS)
- Environmental Geosciences (CNS)
- Environmental Studies and Sustainability (CNR)
- Fisheries & Wildlife (CANR)
- Forestry (CANR)
- Horticulture (CANR)
- Interdisciplinary Studies-College of Social Science (CSS)

**MATERIAL SCIENCE ENGINEERING**
- Actuarial Science (CNS)
- Astrophysics (CNS)
- Chemical Physics (CNS)
- Chemistry (CNS)
- Computational Mathematics (CNS)
- Mathematics (CNS)
- Packaging (CANR)
- Physics (CNS)

**MECHANICAL ENGINEERING**
- Actuarial Science (CNS)
- Construction Management (CANR)
- Horticulture (CANR)
- Mathematics (CNS)
- Packaging (CANR)

**College of Agriculture and Natural Resources (CANR)**
121 Agriculture Hall ● canr.msu.edu

**College of Arts and Letters (CAL)**
200 Linton Hall ● cal.msu.edu

**Broad College of Business (BUS)**
402A Eppley Center ● uas.broad.msu.edu

**College of Communication Arts and Sciences (CAS)**
189 Communication Arts Bldg ● cas.msu.edu

**College of Education (ED)**
134 Erickson Hall ● educ.msu.edu

**College of Natural Science (CNS)**
106 Natural Science Bldg ● naturalscience.msu.edu

**College of Social Science (CSS)**
201 Berkey Hall ● socialscience.msu.edu

**College of Veterinary Medicine (CVM)**
F-101 Veterinary Medical Center ● prevet@cvm.msu.edu
One way of expanding your major options is to take a career assessment. While these assessments will not place you in a career or tell you what major or career is best for you, the results can guide you toward careers and majors you may wish to explore further!

Career Services at the Student Services Building offers several different career assessments that help you understand and talk about how your interests, personality, and values combine to make you who you are.

**CHOICES PLANNER - BRIDGES**  
*(Access this system through our website under Resources+Tools tab/Career Resource Tools)*

- Online tool which allows you to assess and examine your interests, work values, and beliefs about your work skills and get immediate feedback about matching careers and majors.
- A wealth of information to search about occupations and related majors.
- Create a career goal plan and save it all in your own online portfolio.
- Although the entire system can be used independently, an appointment with a career advisor to discuss your results and how to use the information you’ve gathered, is recommended.

**STRONG INTEREST INVENTORY (SII)**

- This assessment is taken online and helps you identify and examine your interests.
- Helps you explore broad interests as well as specific areas of interest and offers a list of careers ranked by your similarity of interest to others of your gender for further exploration.
- Offers ideas on linking interests to majors and ways to develop interests and gain career related experience while in college.
- Requires an appointment with a career advisor. Please visit our website for appointment options.

**MYERS-BRIGGS TYPE INDICATOR (MBTI)**

- Specialized online assessment that can help you gain understanding about your personality style.
- An appreciation of your personality style can help you consider if a major or career might be a good fit.
- Helps you gain insight into your communication and interaction with others in the workplace.
- Requires an appointment with a career advisor. Please visit our website for appointment options.
