FALL 2019: Engagement Opportunities on Campus -- Although our Career Events (Exchange, Expo, etc) draw thousands of students and hundreds of companies and create over 40% of our fulltime engagement opportunities (per survey), we provide a number of other opportunities to interact and recruit our students as well:

**Employer "Pop-Up" event** (formerly called ASK sessions) allow employers to set-up in our Engineering Building lobby for a 2 hour period and connect with students. We provide a space, advertisement of your event, group emails to students and a resume book (of qualified students). These are available on Tuesdays and Thursdays (our lab days) in the 10 a - Noon or 1 - 3 PM blocks. (NOTE: Up to 4 employers can be presented at a time. These are available from Sept. 24 - Nov. 7 & Jan 24 - Feb. 27)

**Employer "Pop-Up" PLUS event** -- similar to Employer "Pop-up" but **you are the only employer on that day** (Up to 4 hour window) **PLUS can host interviews "on the spot" as you find students that match your interests.** We will again provide space, advertisement, personalized email to your target audience (you provide) and a resume book (prior to event). These are available all dates except for Sept. 9 - 18 and Feb. 16 - 23. **Price $500**

**Mock Interviews** allow our students to "practice" their interviewing skills with real employers. Interviews are set-up every 30 minutes. We provide questions, format and resume of students --- You ask the question and evaluate how they did (both written and verbal). These can happen Monday thru Thursday (starting Sept 24 and running thru Nov. 7) and are available in 2 and 4 hour blocks of time starting at 10 am. (We do have Mock Madness event in the Spring). (Mock Interviews are held in the Stadium unless otherwise specified).

**Resume Critiques** are an easy way for employers to help out in the process and connect with lots of students. From Aug. 29 thru Oct. 10th we host employers in our Engineering Building lobby from 10 am - 2 pm (2 hour blocks) to critique students resumes. These events are advertised and allow employer the opportunity to not only advise the student on their resume construction but advise them about your hiring process.

**1st Year Students:** All of these events (Employer "Pop-Up", Mock Interviews and Resume Critiques) are available with our 1st Year students (undergrads) and held in Wilson Hall (the Residential Hall for 1st Year Engineering Students). Events are similar to those outlined above, however times and dates may vary to match up with the schedule and availability of our first year students.
