Accessories

Wire-Wrap Terminals for .042" Holes

Terminals: Vector Wiring Terminals are useful for breadboarding or prototyping using Vectorbord® plugbords[™] and accessories. Individual stamped and/or machine terminals are provided in convenient package quantities. Tools for insertion and staking are also available.

Press-In Terminals for .042" diameter holes

- Single and double-tailed (accessible from both sides) wire-wrap terminals .025" square posts
- Provides secure contact without
- soldering or staking Rectangular base with stepped shank presses into plain or platedthru holes and is retained without
- etching or soldering Pointed ends slide neatly into all
- wrapping bits

Use P133A insertion tool

Push-In Terminals for .042" diameter holes

Use P149A (handle type)

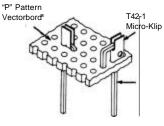

or P149 (shank type)

Insertion tool

 Wiring terminals for mounting leads or wires horizontally or vertically (through board hole)

T42-1

- Connectors require no staking for most applications
- Horizontal slot holds up to seven wires, depending upon thickness of wire

T28

Push-In Terminals for .062" diameter holes

- Wiring terminals for mounting leads or wires horizontally or vertically (through board hole)
- Vertical (longitudinal) slot holes .025" diameter leads or .22 gauge wires
- Includes .018" diameter tab hole which accepts transistor wires, can be used to hold an anchoring wire

Use P91A Insertion tool

Solder Washers - 3 Sizes in Package

Multi-functional solder washer kits, with three sizes of washers. Different sizes provided to fit over sockets and tails of most Vector socket pins and wiring terminals. Ideal tools for committing pins to voltage and ground planes in Vectorbord® patterns, such as Voltage/Ground Plane and Vectorbord plus™, that have clearance area isolating holes from planes.
