Spartan Future Engineer Preview Day is set for Oct. 5

September 11, 2013

College-bound students who are interested in the Michigan State University College of Engineering are invited to East Lansing, Mich., on Saturday, Oct. 5, for Spartan Future Engineer Preview Day.

“Preview Day is the once-a-year opportunity for high school juniors, seniors and transfer prospective students and their parents to attend faculty-led academic informational sessions and learn about what the Spartan Engineers offer at the Resource Fair,” said Drew Kim, assistant to the dean for recruitment, scholarships and K-12 outreach. “It’s the best chance to sample the activities and accomplishments of engineering at Michigan State.”

Spartan Future Engineers Preview Day is free in the MSU Engineering Building, 428 S. Shaw Lane, East Lansing, MI, 48824, but pre-registration is required since the event attracts about 1,000 participants, Kim said. Register at http://www.egr.msu.edu/future-engineer/programs/spartan-future-engineers..., by Friday, Sept. 27.

The day’s events include:

**Saturday, Oct. 5, 2013**

- 9 a.m. - Welcome sessions in 1279 Engineering Building and 1281 Anthony Hall
- 9:30 a.m. - First academic session
- 10:30 a.m. - Second academic session
- 11:30 a.m. to 1 p.m. - Resource Fair
- 1 p.m. – Preview Day ends

Participants will have opportunities to talk with current MSU professors and students, view interactive demonstrations, undergraduate research posters and projects, and learn more about the college’s academic programs in:

- Applied Engineering Sciences,
Spartan Future Engineer Preview Day is set for Oct. 5
Published on College of Engineering, Michigan State University (https://www.egr.msu.edu)

- Biosystems Engineering,
- Chemical Engineering and Materials Science,
- Civil and Environmental Engineering,
- Computer Science and Engineering,
- Electrical and Computer Engineering, and
- Mechanical Engineering.

Representatives of the offices of Engineering Recruitment and K-12 Outreach, Admissions, Education Abroad, Financial Aid, Advising, Guided Learning Center, the Engineering Library, Division of Engineering Computing Services, Women In Engineering, and the Diversity Programs Office will answer questions until 1 p.m. Participants who want to tour engineering laboratories are asked to wear closed-toes shoes, which is a required safety precaution.

Preview Day activities are geared to upper-level high school students so attendance by younger student groups is not recommended, Kim added.

**MSU Engineering**
The MSU College of Engineering has 4,200 undergraduates and 700 graduate students, 200 teaching faculty members and 30,000+ alumni.
