1. Agenda: APPROVED

2. Minutes of September 8, 2022 were APPROVED.

3. Engineering Technology – draft curriculum shared, and discussion continued on the proposed structure of the program. Additional courses/topic areas were suggested, as well as discussion on concentrations. New subject code has been requested so course development can begin.

4. ABET update – 3 day visit was September 18-20. Generally a very positive visit with 6/9 programs having a clean review. CHE, CSE, and ME all have one cited weakness to follow up on, and work has begun in all three programs to remediate the issues.

Meeting was adjourned at 9:45 am
