President

Hi Everyone! Welcome to SWE!

My name is Casey, and I am a senior in environmental engineering! I am your president this year so feel free to ask me (or any of the e-board members) any questions you might have! I encourage you all to get involved with SWE because it is a great organization. We have a lot of events going on throughout the year so you can come to as much as you'd like. I also urge you to become a SWE National Member! To do that you can go to www.swe.org and click "membership". I'm really excited for this year and hope you enjoy SWE as much as I do!

Casey O'Donohue

Vice President

Hello Ladies,

My name is Alexa Jones and I'm your Vice President for our SWE chapter. I'm a senior in Biosystems Engineering and have been a member of SWE for four years. I've worked in the Engineering Career Center for three years now, so I'm super excited to be planning our corporate speakers for the year! I've previously been involved with the community service committee, banquet planning committee, and Wow! That's Engineering. I look forward to getting to know all of you-- we have an exciting year in the works. Go Green!

Alexa Jones
jones60@msu.edu

Secretary

Hey SWE!

I am so excited for all of the great things we have planned for this year! My name is Maureen Berryman. I am a fifth year senior in Biosystems Engineering. I am from Pinckney, MI and have been a part of SWE for 3 years now. I am also an active member of the MSU waterski and wakeboard team.

I hope everyone is getting their resumes polished up and their interview skills ready for the career fair and all the other upcoming networking events! It's never too soon to start looking for an internship!

Maureen Berryman
berrym17@msu.edu

Treasurer

Welcome!

Your treasurers this year are Julie Motz and Megan Buczkowski! Julie is a senior in Materials Science and Engineering with a Metallurgical concentration, along with SWE Julie is also the President of the Materials Science and Engineering Society (MSES). Megan is a senior in Materials Science and Engineering with a Biomedical concentration.

**Community Service**

Hey SWE members!

We are your community service co-chairs for this year, Morgan and Nicole. Morgan is a junior in Civil Engineering who studied abroad in Valencia, Spain this past summer. Nicole is a senior studying Construction Management and had an internship in Denver, CO this summer. We can’t wait to get to know you all this year! As community service co-chairs, we are planning some really great activities this year that will get SWE members out and working with the community to do service for those that are in need. This year we plan to work with Habitat for Humanity and continuing our work at the Ronald McDonald House. We are going to try and have lots of exciting volunteer opportunities this year. If you have any volunteer ideas or questions, please feel free to contact us!

**Outreach**

Hi Ladies!

There are two of us on the E-board for outreach this year: Laura Gumpper and Nicole Morgenstern. We are Mechanical and Civil Engineering majors in our sophomore and junior year at MSU. We are both joined the SWE E-board for the first time this year and we are really excited to begin planning outreach events. Outreach targets students of all ages in hopes of exposing them to the possibilities that engineering has to offer and advising them in their search for a college path. We are hoping to plan days where we volunteer to teach students at Dwight Rich Middle School about science and engineering by having them do a fun, creative activity. We will keep you updated with Outreach opportunities in the weeks to follow! :)

gumpperl@msu.edu  
Nicole Morgenstern  
morgens5@msu.edu

**Social**

Hey SWE ladies!

Social has a lot of exciting activities planned for this year! This year’s social co-chairs are Sarah Miksa and Linzy Pedersen. Sarah is a senior in Chemical Engineering, and Linzy is a sophomore in Civil Engineering. This is Sarah’s second year as social co-chair and Linzy’s first year on SWE E-board. We are both excited to meet all of the new SWE girls! Our job is to put together a fun activity approximately once a month for all the SWE girls to come to. The first social event of the year is a trip to Uncle John’s Cider Mill on Sunday, Sept 30 at 11 am! Stay posted for more details!

**Member Relations**

Hello Lady Spartans!

Just to do a quick introduction, my name is Leah, and I am you're Member Relations Chair this semester! There are a lot of fun things that will be going on this semester! Please remember to participate in order to receive points for prizes! Also, if you become a national member, you get bonus points, along with many other great opportunities!

Corporate Relations

Hey everyone!

My name is Amanda Sliney and I am currently a sophomore in mechanical engineering. As the corporate Relations chair, my main job is to help all of you find any internships and co-ops for the upcoming summer. I hope you all had a great summer and I'm excited to get to know all of you!

Amanda Sliney
slineyam@msu.edu

WOW/Banquet

Hi SWEsters!

Get excited for "WOW That's Engineering"! The date is set for October 27th! We will need lots of volunteers to help the middle school girls learn about engineering and have a great time at the event, so mark your calendars!

Webmaster

Hey ladies! My name is Ayona and I am the new Webmaster for this year. I am a junior studying computer science and I am from Ann Arbor, MI. I cannot wait to meet all the new members and I hope you enjoy being a part of SWE as much as I do. Please feel free to check out SWE website if you haven't already!

SWE Advisor

Hi, my name is Judy Cordes, and I am the Advisor for SWE. I also am the Coordinator for the Women in Engineering Program. I love working with SWE because they do so many great things. SWE can really enrich your life and teach you skills that will be helpful to your personally and professionally. We hope you will keep coming, get involved, and become a member. If you have any questions regarding SWE, Women in Engineering, or just in general (I have been here a long time), please feel free to email me or stop by my office in The Center, 1340 Engineering Building (across from Spartys).

Fact of the Week:

The Zhaozhou Bridge is the oldest standing bridge in China and the world’s oldest stone segmental arch bridge. Built in 605 AD, it is still standing strong today, over 1400 years later.
