

CURRICULUM VITAE

Hassan K. Khalil
Department of Electrical and Computer Engineering
Michigan State University (MSU)
428 S. Shaw Lane
East Lansing, MI 48824
E-mail: khalil@msu.edu
ORCID (0000-0002-9968-2181)

Education Ph.D. (1978), University of Illinois (P.V. Kokotovic, thesis advisor), M.S. (1975) and B.S. (1973), Cairo University.

Professional Experience

2020 –	Univ. Distinguished Professor Emeritus, Electrical and Computer Eng., MSU
2003 – 2020	Univ. Distinguished Professor, Electrical and Computer Eng., MSU
1987 – 2003	Professor, Electrical and Computer Engineering, MSU
1983 – 1987	Associate Professor, Electrical Engineering, MSU
1978 – 1983	Assistant Professor, Electrical Engineering, MSU
1975 – 1978	Research Assistant, Electrical Engineering, Univ. of Illinois, Urbana
1973 – 1975	Teaching Assistant, Electronics and Communication, Cairo Univ.

Research Interest

Nonlinear Control; Singular Perturbation Theory

Honors

- Fellow of the Institute of Electrical and Electronics Engineers (IEEE), 1989, for contributions to singular perturbation theory and its application to control.
- Fellow of the International Federation of Automatic Control (IFAC), 2007, for contribution to singular perturbation theory, nonlinear feedback control and control education.
- George S. Axelby Outstanding Paper Award, IEEE Control Systems Society, 1989.
- John R. Ragazzini Education Award, American Automatic Control Council, 2000.
- Control Engineering Textbook Prize, IFAC, 2002.
- O. Hugo Schuck Best Paper Award, American Control Conference, 2004.
- AGEF Faculty Mentor of the Year Award, 2009.
- The Journal Dynamics of Continuous, Discrete & Impulsive Systems published two special issues in December 2010 in honor of Professor Hassan K. Khalil's 60th birthday. One issue is under series A: Mathematical Analysis and the other under series B: Applications & Algorithms.

- Bode Lecture Prize, IEEE Control Systems Society, 2015

Honors (Michigan State University)

- Teacher Scholar Award, 1983.
- Withrow Distinguished Scholar Award, College of Engineering, 1994.
- Distinguished Faculty Award, 1995.
- University Distinguished Professor, 2003.
- Withrow Teaching Excellence Award, College of Engineering, 2020

Technical and Professional Activities

- Associate Editor of IEEE Transactions on Automatic Control, 1984 - 1985, Automatica, 1992 – 1999, and Neural Networks, 1997-1998; Editor of Automatica, 1999 – 2008.
- Active in the organization of the IEEE-CDC Conference and the American Control Conference (ACC), including service as Program Chair of the 1988 ACC and General Chair of the 1994 ACC.

Industrial Consulting

- General Motors Research Laboratories, 1984 – 1988.
- Delco Products (GM), 1989–1991.
- General Motors R&D Center, 1993–1994.

Research Projects Funded by External Agencies

- Continuous funding from the National Science Foundation from 1979 to 2017. Topics include singular perturbations, decentralized control, feedback control of multiple time scale systems, nonlinear output feedback control: performance and robustness, and High-Gain Observers in Nonlinear Feedback Control.
- A contract with the U.S. Department of Energy from 1980 to 1983 on multimodel strategies for stochastic models.
- Funding from Ford Motor Company (with E. Strangas) from 1995 to 2001. Topics include robust AC motor control with minimal sensor requirements and fault diagnosis for DC distribution systems.

- A combined research curriculum development grant from the National Science Foundation from 1997 to 2000 (with F. Salam, C. Radcliffe, S. Shaw, and R.L. Tummala) on real-time sensing and control computing for automotive systems. The main goal of the grant is the development of a pilot senior-level course on automotive control which incorporates advanced nonlinear and intelligent control tools.
- Funding from the National Science Foundation from 2008 to 2011 (with X. Tan) on nonlinear and adaptive control of smart material-actuated systems with application to nanopositioning.
- Funding from National Science Foundation from 2015 to 2018 (with R. Mukherjee) on impulsive control of underactuated mechanical systems.

Ph.D. Students

- Mohamed Gamal El-Ansary, 1983; professor, California State University, Bakersfield.
- Ali Saberi, 1983; professor, Washington State University; Fellow of IEEE and author of three research monographs.
- Douglas William Luse, 1983; industrial engineer, USA.
- Bakhtiar Litkouhi, 1984; senior staff engineer, General Motors R&D Center.
- Zoran Gajic, 1984; professor, Rutgers University; author of three research monographs and two textbooks.
- Yung-Nan Hu, 1986; associate professor, Da Yeh University, Taiwan.
- Rabah Wasel Aldhaheri, 1988; professor, King Abdul-Aziz University, Saudi Arabia.
- Farzad Esfandiari, 1990; engineer, Motorola, USA.
- Fu-Chuang Chen, 1990; associate professor, National Chiao Tung University, Taiwan.
- Seungrohk Oh, 1994; associate professor, Dankook University, Korea.
- Nazmi A. Mahmoud, 1994; engineer, Chrysler, USA.
- Ahmed Nazir Atassi, 1999.
- Bader Aloliwi, 1999, assistant professor, Saudi Arabia.
- Ahmed M. Dabroom, 2000, assistant professor, Saudi Arabia.
- Hyon Sok Kay, 2003; engineer, Samsung, Korea.
- Sridhar Seshagiri, 2003; associate professor, San Diego State University.

- Leonid Freidovich, 2005; assistant professor; University of Umea, Sweden
- Jeff Ahrens, 2006; engineer, Corning, USA
- Attaullah Memon, 2009; assistant professor, NUST, Pakistan
- Shahid Nazrula, 2010; engineer, Chrysler, USA
- Alexis Prasov, 2011; researcher, MIT Linclon Lab
- Mohamed Edardar, 2013; assistant professor, Lybia
- AlMuatazbella M. Boker, 2013, collegiate assistant professor, Virginia Tech, USA
- Joonho Lee, 2014, research engineer, GM R&D, USA
- Dhruvajit Chowdhury, 2020, postdoctoral research associate, Oak Ridge National Laboratory, USA
- Yasir Al-Nadawi, 2021, research engineer, Honda R&D, USA
- Abdullah Alfehaid, 2021

Books

- P.V. Kokotovic, H.K. Khalil and J. O'Reilly, *Singular Perturbation Methods in Control: Analysis and Design*. Academic Press, 1986. Republished by SIAM under the Classics in Applied Mathematics series, 1999.
- H.K. Khalil, *Nonlinear Systems*. Macmillan, 1992; Prentice Hall, 1996 (second edition), 2002 (third edition). The second edition received the IFAC Control Engineering Textbook Award, 2002.
- H.K. Khalil, *Nonlinear Control*. Pearson Education, 2015.
- H.K. Khalil, *High-Gain Observers in Nonlinear Feedback Control*. SIAM, 2017.
- P.V. Kokotovic and H. K. Khalil, Editors, *Singular Perturbation in Systems and Control*. IEEE Press, 1986.
- H. Khalil, J. Chow and P. Ioannou, Editors, *Proceedings of Workshop on Advances in Control and its Applications*. Springer-Verlag, 1996.
