The IEEE Computer Society Committee on Integrity was requested to conduct an investigation regarding the complaint you have filed against the authors of the following paper:

"Design of Cost Aware Secure Routing (Caser) Protocol Mechanism in Wireless Sensor Networks"
International Journal of Innovative Research in Computer and Communication Engineering
Vol. 4, Issue 4, April 2016
pp 7385-7389
by Shrikant Salve, Bhagyashree Warhade, Sagar Joshi

An ad hoc committee was formed to review the case. I recently received the report from this committee. The committee found level ONE plagiarism. Actions have been taken according to the regulations in section 8.2.4 of the IEEE Publication Services and Products Board Operations Manual, which is available at <http://www.ieee.org/documents/opsmanual.pdf>

We have notified the other publisher of this decision and they have removed the paper from their website archives.

Best Regards,
Dr. Davide Falessi
IEEE Computer Society Integrity Chair
